EXPERIENCE

- **Software Developer Intern** Bhopal, Madhya Pradesh
RRID TECH PRIVATE LIMITED 06/2026 - Present
 - Developed responsive web applications using Java, Spring Boot and React.
 - Built REST APIs and integrated MySQL database.
 - Fixed bugs and improved application performance.
 - Collaborated with team members using Git and GitHub.
 - Participated in code reviews and Agile development process.

PROJECTS

- **Political Management System** 05/2026 - 07/2026
Github
 - Tech Stack: Java, Spring Boot, React.js, MySQL, JDBC, REST API, Git, GitHub
 - * Developed a role-based Political Management System with Admin, Manager, and Member modules for efficient user and party management.
 - * Built secure RESTful APIs using Spring Boot and integrated them with a React.js frontend.
 - * Designed and managed a MySQL database to handle users, political parties, members, and role-based access control.
 - * Implemented CRUD operations for party, member, and user management.
 - * Developed secure login, dashboard, and profile management features.
 - * Followed Object-Oriented Programming (OOP) principles and the MVC architecture to build a scalable and maintainable application.
 - * Used Git and GitHub for version control and collaborative development.
 - Key Features
 - * Role-based authentication and authorization (Admin, Manager, Member)
 - * User, party, and member management
 - * REST API integration with React.js
 - * MySQL database connectivity and data management
 - * Responsive and user-friendly interface
 - * Secure login and profile management
- **Weather App** 10/2025 - 11/2026
Github
 - Developed a responsive Weather Forecast Application using HTML, CSS, JavaScript, React.js, and Weather API. The application provides real-time weather information, including temperature, humidity, wind speed, weather conditions, and forecasts for any searched city. Integrated REST APIs to fetch live weather data and designed a user-friendly interface for an enhanced user experience.
